

Solar Panel Mounting Structure Aluminum Short Rail is designed for direct assembly and solid support, making it ideal for installation on roof and floor systems. The corrugated side design enhances the strength of the connection between the hook and the rail. In addition, slots on both sides of the rail allow for easy installation. The aluminum frame provides sturdy support for the solar panels.

Specification

Product Name	Aluminum Rail for solar mounting system
Brand Name	Wanhos
Product Material and Surface	Material: Aluminum Surface: anodized
Product Size	Various types with standard size or customized size Length is cut according to the customer's requirements
Other Related Products	Solar Bracket Rails, Rail Connector, Solar End Clamp, Solar Mid Clamp, Bolt & Nut.
Feature	Anti-corrosion, Long Service Life, Easy Installation
Application	PV Solar Panel Installation
Certificate	ISO9001, CE, CPP
Installation Site	Open Field
